SKILLS FOR INDUSTRY 4.0

Industrial Revolution, is the process of change from an agricultural society and handicraft economy to one dominated by industry and machine manufacturing. The Industrial Revolution began in the 18th century, and now we are in fourth industrial revolution called Industry 4.0.

Let us see the evolution of industrial revolution.

The First Industrial Revolution was marked by a transition from hand production methods to machines, increasing use of steam power and waterpower, the development of machine tools and the rise of the mechanized factory system.

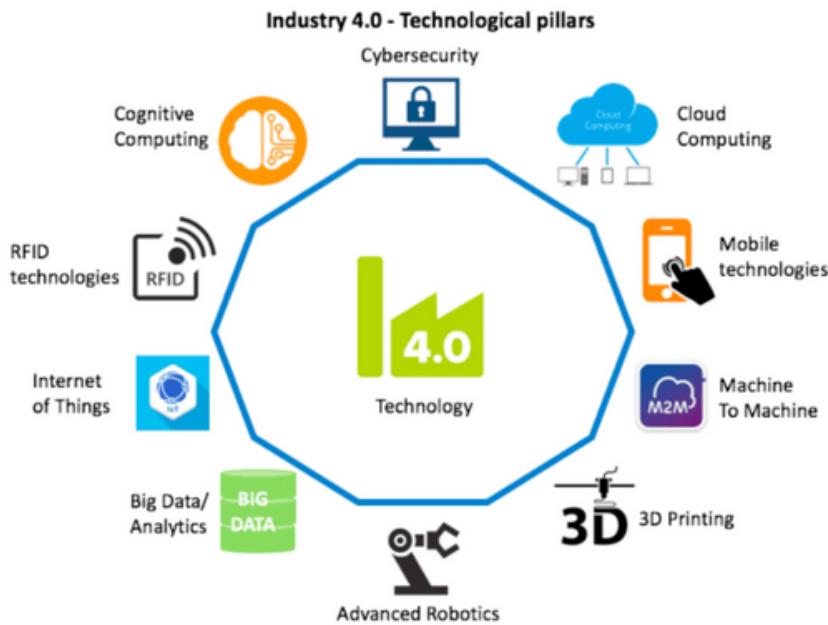

The Second Industrial Revolution is known as the Technological Revolution. During this phase installations of extensive railroad, telegraph network and increased electrification happened. This resulted in the development of modern production line, increased productivity and increased economic growth.

The Third Industrial Revolution, known as the Digital Revolution, is the shift from mechanical to digital world with extensive use of computer and communication technologies in the production process.

Fourth Industrial Revolution, called Industry 4.0 deals with automation of traditional manufacturing process using modern smart technology like internet of things (IOT), cloud computing, Machine language and Artificial intelligence.

The difference between the third and the fourth industrial revolution is that, in industry 4.0, computers are connected and communicate with one another to make decisions without human involvement.

Various technologies involved in the communication between computers, and the computers and machines are given in the figure.

Challenges with Industry 4.0:

4.0:

There are many challenges faced by industrialists while shifting to industry 4.0 and they are listed below.

1. A gap in technical skills
2. Data sensitivity
3. Interoperability
4. Security
5. Handling data growth

#Microphone

Challenges with Industry 4.0

Among the 5 challenges, the one that tops the list is the gap in technical skills. This gap is due to mismatch between what is taught in college and the requirement at work. This disparity must be addressed by inculcating the following skills in the students through training. This will make the students ready to face industry 4.0.

Some of the most crucial skills needed to face the industry 4.0 revolution include:

- **Virtual collaboration:** The ability to effectively collaborate between virtual team members via technology.
- **Cognitive load management:** The ability to filter information by importance and maximise cognitive functions.
- **Computational thinking:** The ability to translate vast amounts of data into abstract concepts and to understand data-based reasoning.
- **Design mindset:** The ability to represent and develop tasks and to focus on the work process to achieve the desired outcomes.
- **Social intelligence:** The ability to convey concepts to others deeply and directly and be able to sense and stimulate reactions.
- **Adaptive thinking:** Demonstrating the proficiency of thinking and coming up with solutions, and the ability to determine the deeper meaning of what's being expressed.

Apart from the above, the following technical skills are also needed for industry 4.0.

1. Analytical thinking and innovation
2. Active learning and learning strategies
3. Complex problem-solving
4. Critical thinking and analysis
5. Creativity, originality, and initiative
6. Leadership and social influence
7. Technology use, monitoring, and control
8. Technology design and programming
9. Resilience, stress tolerance, and flexibility
10. Reasoning, problem-solving, and ideation

Now the world is moving towards industry 5.0. If we are not fast enough to be abreast with industry growth, then we will be at a loss. Being successful in this competitive world, is to upskill ourselves with the latest technologies.

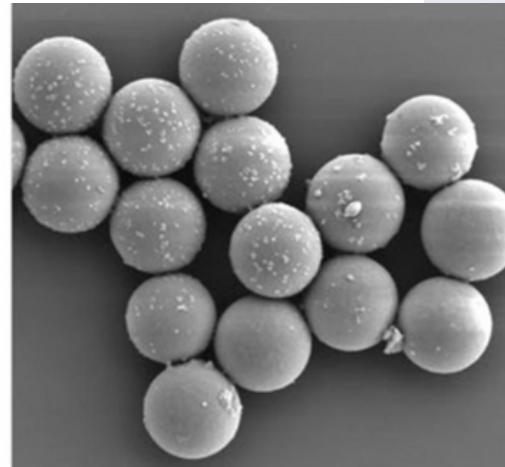

DATA STORAGE - THEN AND NOW

There are about 10 trillion gigabytes of digital data, available worldwide and we add up to another 2.5 million gigabytes everyday. Traditional digital storage systems like CD, DVD, flash drivers could provide a density of around 201 GB/ in². Much of this data is stored in enormous facilities referred to as exabyte data centres. An exabyte is 1 billion gigabytes and cost around \$1 billion to build and maintain. To store data to a magnitude of zettabytes, it requires a large physical space. Another required characteristic of data storage is the preservation duration. Traditional media like tapes and others are only capable of storing data only for tens of years due to their tendency to decay.

Scientists iterate, that new solutions are required for storing these large amounts of data that the world is accumulating, especially the archival data. They also believe that an alternative solution could be the use of the molecule that contains our genetic information: DNA, which evolved to store large quantities of information at very high density. Deoxyribonucleic acid (DNA) has been in the limelight due to its inherent features, like high physical density and long durability, which significantly satisfies the need for large-sized long-term storage.

DNA is thousand times denser than even the flash memory, and another significant property is that once the DNA polymer is made, it doesn't consume any energy. DNA, when once written can be stored forever. Besides, DNA's four-letter nucleotide (A nucleotide is the basic building block of nucleic acids. RNA and DNA are polymers made of long chains of nucleotides) code offers a suitable coding environment like the binary digital code used by computers and other electronic devices, to

A photo of the DNA "files." Each silica sphere contains DNA sequences that encode a particular image, and the outside of the sphere is coated with nucleotide barcodes that describe the image contents.

Credit: Courtesy of the researchers

represent any letter, digit, or other character. For the storage of data in DNA, a data file is first converted from its digital sequence of 0's and 1's into a DNA sequence of A's, C's, T's and G's.

Fifteen tech-based companies and institutions have formed an alliance in 2020 with the aim of advancing DNA data Storage. Among these Illumina, Microsoft, Twist Bioscience, and data storage giant Western Digital take the forefront as the founding members of the DNA Data Storage Alliance.

It has been proven that we could encode images and texts as DNA. But the task is, finding out the required file from a mixture of many pieces of DNA. This can be achieved by encapsulating each data file into a 6-micron silica particle labelling it with a short DNA sequence to reveal the contents. Using this method, it is proved that we can accurately extract a single image from a set of images, which are stored as DNA sequences.

Technoteen-Science Fair

**Technoteen,
A Science Fair.**

Department of Science and Humanities.

Rules:

- 01 Every team should contain a maximum of five students.
- 02 Interdepartmental teams score extra points.
- 03 Every meeting should be documented and informed to the coordinators, and should also include snapshots.
- 04 Students have to send their resumes with their abstract.
- 05 Only novel ideas will be entertained and if your project contains a social impact you would gain extra points.
- 06 Teams with girl students will score extra points.
- 07 Simulators, working prototypes, or emulators should be utilized for the project.
- 08 The presentation should only be in English.

Department of Science and Humanities.

Technoteen is meant to stoke and rouse the mental abilities of teenagers, the first years and to challenge them technically. In this regard, an active group of III-year students felt that it was their responsibility to put a spark in the juniors, right at the start of the course. Hence, they planned to host the science fair for them and thus sat for a discussion to make it happen along with the HoD of S&H.

The whole idea was to help them put on their thinking cap, and think out of box, so that they could achieve something spectacular. The first meet was conducted to brainstorm ideas on how to make the science fair more effective for the students. There were long discussions about the topic to be given and finally, it was decided to keep it open to all ideas.

It was planned to conduct Technoteen in multiple phases, starting off with an ideation phase, a platform for students to express their simple ideas. The teams were asked to register with their team members, the title and the abstract, as a first step. Then they were assigned third-year student mentors from different departments, based on their domain of interest, to give them a mutual learning experience for both the mentors and the students. We had faculty mentors as well guiding them.

It was a wonderful experience for the mentors too, guiding the juniors in every step until the day of the competition. The first phase took place on 18th and 19th of June 2021. There were around 30 teams, split across two days. The jury consisted of both final-year students, who have experience in project work and faculty as well.

It started at 2 pm on 18th, with the Principal addressing the gathering, followed by few motivating words from the HOD of S&H. The teams were ready with a sense of excitement to present in front of everyone gathered. The online meet had a strength of 90 members consisting of first-year students, their mentors, and faculty throughout both the days. The jury of day 1 asked the students simple yet intriguing questions. At the end of the day, the questions made the teams of day 2 even more anxious to know the comments and questions of the jury for their project.

The second day started with a special address by the Principal and the HOD as well. With a panel of six judges, the second day was filled with mind-blowing presentations and Q and A sessions with the judges. The freshers were very happy and satisfied with all the efforts they had put in, for Technoteen.

The day came to an end with student mentors and jury members sharing their feedback and experiences. After almost five long hours, the session concluded with a snapshot. The teams are excited to build on these ideas to see it take a better form by the second phase of Technoteen which will take place in the month of August.

The overall feedback of the event was very good. It was definitely a great experience for the amazing team, without whom it wouldn't have been possible.

TEAM BEHIND TECHNOTEEN:

Ms.Josephine, HOD S&H

Akshatha Das Meetinay, III yr IT

Benedict Roshan Sebastian, III yr CSE

Swana Simran Singh, III yr IT

Silas Ashar, III yr IT

6	Python Certification Program Certified by Python Institute-CISCO	101	June 2021	I, II & III

FACULTY DEVELOPMENT PROGRAM

The following Online FDPs were conducted in the month of May - June 2021

1. Fundamentals of AI & ML
2. Fundamentals of AI
3. Introduction to Angular JS
4. Product Simulation using Fusion 360
5. Creative Thinking
6. Stress Management
7. Introduction to Python Programming
8. ICT Tools for Faculty
9. Digital Learning Techniques
10. Conflict Management
11. Delivering High Impact Presentation
12. Stress Management

On a total 24 faculties benefited out of this FDPs

Report on Training & Excellence

Training

Former CTO H Bemesha Smitha attended the Pre-Commissioning Course PRCN/SW/107 from 8-Feb-2021 to 8-May-2021 at NCC Officers Training Academy (OTA) Gwalior, Madhya Pradesh. She got commissioned as Associate NCC Officer (ANO) on 8th May 2021 and promoted as Lt H Bemesha Smitha

Ms. Bemesha Smitha
AP, IT

Achievements

In the Academy, she was appointed as the Company Senior based on her overall persona and performance and charged to take up the responsibility of the entire events of the company and conduct.

During the Course of training, she received "Certificate of Excellence" in 6 categories

- Excellence in Planning & Organising Institutional Training
- Excellence in Book Review
- Excellence in Drill IP
- Excellence in Yoga IP
- Excellence in Camp Planning
- Excellence in write up on role of NCC Cadets During Disaster Management.

She also participated in the Inter Coy Company Competition and won trophies in Volleyball & Badminton games.

Events:

In view of celebrating International Day of Yoga (IDY) 2021, the NCC Army unit organized a webinar on "Yoga for Health and Fitness" held on 21th June 2021, with the concept of "Be with Yoga, Be at home". Lt Dr N Bidhya Pati, Assistant Professor, Department of Physical Education, GP Women's College, Imphal, Manipur addressed the cadets. Every NCC cadet participated and practiced Yoga to be fit and healthy.

STUDENT ACHIEVEMENTS

An interdisciplinary team named COSMOSTELLAR comprising of students, Sakthivel of III EEE, Alfred of I EEE, Punitharaj, Purveen Ram, Shimon Thomas, Pranavan, Mhd. Hamdaan of III MECH, Sneha, Shimona, Sherwyn of II Mech along with Lokeshwaran III ECE and Praveen I ECE participated in the International Planetary Aerial Systems (IPAS) Challenge. The challenge was to design a Mars Aerial System (Vehicle) which shall be fully equipped and mission ready for operation on Mars. This event was organised by Mars Society-South Asia. Our team COSMOSTELLAR stood seventh among the teams from the South-Asian Countries.

MAY 5th

ARTICLE PUBLICATION

Mr G.K. Sathishkumar Assistant Professor / Mech has submitted a manuscript titled Experimental and Finite Element Analysis of Lignite Fly Ash on the Mechanical Properties of Sisal-added Polymer Matrix Composite using ANSYS workbench is accepted in Journal of Natural Fibers (A group of Taylor and Francis Ltd publication) that has an impact factor of 2.622.

MAY 5th

HACKATHON

Mohammad Hamdaan of III Year Mechanical Engineering Participated in World Innovation Hack conducted by UN.

MAY 5th

PANEL DISCUSSION

Ms. Ann Christina. T AP/S&H, attended a panel discussion on Education 4.0 organised by BW Wednesday Wisdom.

MAY 7th

WEBINAR

Dr.E.Madhavan Pillai, Professor / Mech, attended a webinar on Cyber Security, organized by the Department of Information Technology

#Academic Events

MAY 7th

ONLINE POST GRADUATION

Dr. Elgin Christo V R AP/IT successfully completed Post Graduation in AI and Machine Learning, online, in Purdue University

MAY 7th

JOURNAL PUBLICATION

Ms. Anitha E, AP/IT published paper titled Face Recognition Based Secured Locker Control and Gesture-Based Home Appliance Control for Disabled People in the International Research Journal of Engineering and Technology (IRJET), Volume 8, Issue 5, May 2021.

MAY 7th

INTERNSHIP

Smith Trivedi of IV IT successfully completed internship with Fornex, a Data Analytics Studio under Sector 7 Workspace Private Limited as Business Research Analyst from 8th March to 7th May 2021

MAY 7th

WORKSHOP

Dhivya Dharshni S and Rohan Jebaraj of II IT participated in a 5 day national workshop on Building Skills, organised by Tech Pro Club of CSE, SRMIST from 3rd to 7th May 2021.

MAY 7th

WEBINAR

Sharaon Nivedita of I IT attended webinar on Cyber Security organized by Road Track Club of LICET

MAY 7th

FDP

Ms. J Christina, AP/CSE completed a five day online Faculty Development Programme on Inculcating Universal Human Values in Technical Education organised by All India Council for Technical Education (AICTE).

#Academic Events

MAY 7th

INDUSTRY-ACADEMIA CONCLAVE -2021

The Department of Electronics and Communication Engineering organized a panel discussion on “Strategies to Turn the Opportunities into a Bright Career in the Industry” as a part of the Industry-Academia Conclave -2021.

MAY 8th

WEBINAR

Design Validation session for III year Mechanical Engineering students was organised by the Department of Mechanical Engineering, LICET. Mr Theliban and Mr Arulius Savio alumni of Mechanical Engineering Department perused the design calculations and gave actionable signposts.

MAY 8th

WEBINAR

The Department of Mechanical Engineering organised a webinar on Smart Vehicles for Higher Secondary and Diploma students Mr.N.Prabhu Shankar, Asst.Prof. / Mechanical Engineering walked through various intriguing concepts with respect to Smart Vehicles

MAY 8th

WORKSHOP

Anthea A M B of III IT participated in the free national workshop on Robotics Vision in association with Pantech e-Learning on 7th & 8th May 2021

MAY 9th

IDEATHON

Ahathiya.S of I IT presented an idea, The Ecoist, in Ideathon-II conducted by LICET Pattarai on 8th & 9th May 2021.

MAY 11th

INTERNSHIP

Yashwanth Yogi of III year Mechanical Engineering completed four weeks internship on Space Technology and Aerospace Rocketry from 10th April to 12th May 2021.

#Academic Events

MAY 11th

WORKSHOP

Maria Anisha G of II IT participated in a one day online workshop on Deploying AI Robots on Hardware In association with LIVEWIRE, IEEE Computer Society and Computer Society of India, organized by Panimalar Institute of Technology

MAY 13th

WEBINAR

Dr.E.Madhavan Pillai, Professor / Mech attended a webinar organized by LICET - NSS club on Winning over the COVID wave by Dr. Jerome Xavier P, B.S.M.S., M.D, eminent Siddha Specialist.

MAY 14th

FDP

Dr. R Juliana, HoD/IT successfully completed a 5 day online FDP on Fundamentals of AI and ML, organized by ICT Academy

MAY 14th

STTP

Dr. A Janani, Asso. Prof/IT successfully completed ISTE approved Short Term Training Programme on Data Science with Python, organized by D Y Patil College of Engineering and Technology from 10th to 14th May 2021.

MAY 14th

WEBINAR SERIES

Raksha V G of II IT participated in the event, Spread Wings, Robotx and Ride on, Grow up, an intercollegiate technical webinar series, organized by Cyborg Automata Club, Chennai Institute of Technology from 10th to 14th May 2021.

MAY 15th

ALUMNI MEET

The Department of Mechanical Engineering organised an Alumni meet for 2011-2015 batch. Topics ranging from job descriptions to entrepreneurship were discussed in the meeting.

#Academic Events

MAY 15th

ONLINE COURSE

Preethi R of II IT completed a Certification course on AWS Academy Cloud Foundations & was awarded the badge AWS Academy Graduate.

MAY 15th

APPRECIATION

Sedric F R of I CSE has achieved Rank 9349 in Open Coding Round Contest and is awarded for outstanding performance and exemplary contribution to TechGig.

MAY 16th

ONLINE COURSE

Jennifer Lesly S of III IT successfully completed Introduction to Psychology, an online non-credit course authorized by Yale University and offered through Coursera

MAY 16th

ONLINE COURSE

Vincy Veronica A of II IT completed a Certification course on AWS Academy Cloud Foundations course & was awarded the badge AWS Academy Graduate.

MAY 17th

ONLINE COURSE

Mr. L Remegius Praveen Sahayaraj, AP/ CSE completed a 20 hour AWS Academy Cloud Foundations course & was awarded the badge AWS Academy Graduate.

MAY 17th

FDP

Dr.Kavitha AP/Chemistry attended a one week FDP on ICT TOOLS for Faculty (Online live FDP) conducted by ICT Academy.

#Academic Events

MAY 18th

WORKSHOP

Anthea A M B of III IT attended a two day workshop on Artificial Intelligence with Python organized by Postulate Institute of Research and Technology on 17th & 18th May 2021 & also AR and VR organized by Geethanjali Institute of Science and Technology, in association with Pantech E-Learning

MAY 18th

ONLINE COURSE

Regis R of I IT successfully completed an online course on React JS Web Developer with ES6 through Udemy.

MAY 18th

WEBINAR

Ms. Ann Christiana. T, AP/S&H, attended a webinar on Ace the Interview: Etiquette, Tips & Tools & Answering Tricky Questions in the Pandemic by Shivani - Corporate Trainer organised by Sipping Thoughts.

MAY 19th

WORKSHOP

Anthea A M B of III IT attended a workshop on Mobile Android App Development organized by Government Polytechnic, Ambad District, in association with Pantech E-Learning

MAY 19th

WEBINAR

Ms. V J Sharmila, AP/CSE participated in an international webinar on Computing Applications in Biology, organized by the Department of Computer Science and Engineering, Easwari Engineering College, Chennai.

MAY 20th

ISTE FDP

Mr P Chandrasekhar AP/Mech, attended ISTE online FDP on Emerging Trends in Teaching and Learning from 20th May to 26th May 2021, conducted by Chouksey Engineering College, Bilaspur

JUN 10th

WEBINAR

Princy Joshna Mary of II IT, attended a webinar on Advanced IoT and Embedded System organized by Institute of Road and Transport Technology, in association with Pantech E Learning.

JUN 10th

PROJECT COMPETITION

Ms A Jeevitha, AP/CSE, completed Transacting on the Blockchain, an online non-credit course authorized by INSTEAD and offered through Coursera.

JUN 10th

WEBINAR

Ms R Sathiapriya, AP/CSE, participated in a webinar on Start-Up Funding - A Test by Fire, organised by the Loyola Institutions Innovation Council (LIIC), Loyola College, Chennai.

JUN 11th

CRASH COURSE

The Department of Information Technology organized Crash Course on Python with Exclusive hands-on experience for Higher Secondary students from 7th to 11th June 2021

JUN 11th

FDP

Dr Janani A Asso., Prof./IT, attended a five day FDP on Innovation Incubation Startup and Research Challenges in India, organized by Internal Quality Assurance Cell Idhaya Engineering College.

JUN 11th

ONLINE COURSE

Princy Joshna Mary of II IT, successfully completed Machine Learning Master Class at Pantech Prolabs India Pvt Ltd conducted from 7th to 11th June 2021.

#Academic Events

JUN 11th

WEBINAR

Ms V J Sharmila,AP and Ms A Jeevitha,AP/CSE, have participated in the virtual webinar on Machine Learning with MATLAB, organised by the Department of Computer Science and Engineering, Noorul Islam Centre for Higher Education, Kumaracoil in collaboration with DesignTech Systems vt.Ltd.,Hyderabad.

JUN 12th

ONLINE COURSE

Krithika N of II IT, successfully completed an online course on AWS Academy Cloud Architecting course & was awarded the badge AWS Academy Graduate.

JUN 12th

SUMMER CAMP-LSSS

Ms. Nilavu AP/English, Mr. Mario Cassion Anand AP/English, Ms. Josephine AP/Mathematics, Ms.Shenbaga Devi AP/Mathematics, Dr. Mike Dison AP /Mathematics were the trainers in Loyola Online Summer Camp, organised by Loyola Students Support Service.

JUN 13th

EVENT PARTICIPATION

Elizabeth Subhiksha Victoria of II IT, participated in non-technical events and won the second place in Oru Kadha Sollata Sir, third place in Decode De Veganza, also in the technical event Quadkona and won the second place, in Festx conducted by LICET PATTARAI on 12th and 13th June 2021

ONLINE COURSE

Aravind M of I IT, successfully completed Cryptography and Information Theory, an online non-credit course authorized by University of Colorado System and offered through Coursera.

JUN 14th

EVENT

Electra Fest, an event for the school students was organised by the Department of Electrical and Electronics Engineering. Students from various schools participated in the event.

#Academic Events

JUN 14th

HACKIT 2021

The Department of Information Technology organized an online project idea - HackIT 2021 for Higher Secondary students. Students from various schools participated in the event.

JUN 14th

WEBINAR

Princy Joshna Mary of II IT, attended a webinar on Role of ML in Data Science, organized by H K E Society's S L N College of Engineering, in association with Pantech E Learning.

JUN 15th

ONLINE COURSE

Pavithra P of II IT, completed an online course on AWS Academy Cloud Architecting course & was awarded the badge AWS Academy Graduate.

JUN 15th

WEBINAR

Princy Joshna Mary of II IT, attended webinars on Brain Wave Controlling in Robotics organized by PET Engineering College, in association with Pantech E Learning & 5G Wireless Communication, organized by Kumaraguru College of Technology, in association with Pantech E Learning.

JUN 16th

WEBINAR

Princy Joshna Mary of II IT, attended a webinar on Python Programming and its Application, organized by Balaji Institute of Technology and Science, in association with Pantech E Learning.

JUN 17th

FDP

Dr.E.Madhavan Pillai, Prof/Mech attended a one day FDP on Smart Manufacturing, Connected Factories, organized by Institution of Engineers India (Telengana State Centre) and Chaitanya Bharathi Institute of Technology, Hyderabad.

#Academic Events

JUN 17th

ONLINE COURSE

Sharwin Xavier and Sherin Sneha of II IT, successfully completed an online course on Software Engineering Virtual Experience through Forage.

JUN 18th

STEM IDEATHON 1.0

The Department of ECE conducted Stem Ideathon 1.0, an exclusive event for class XII students. 95 students from 56 schools across India participated in the event.

JUN 19th

IDEATHON

An Ideathon was organised by the Department of Mechanical Engineering exclusively for higher secondary and diploma students.

JUN 19th

FDTP

Ms Shobana G AP/IT, attended a six day FDTP on Cryptography and Network Security from 14th to 19th June '21.

JUN 19th

CONTEST

Department of Computer Science and Engineering organized an online Art Contest Picasso on a PC for 11th and 12th students with the main objective to improve the digital presence and visibility of LICET in social platforms and to help the students make use of technology in a productive way.

JUN 20th

ONLINE COURSE

Krithika N of II IT, successfully completed an online course on Software Engineering Virtual Experience through Forage

#Academic Events

JUN 20th

ONLINE COURSE

Preethi R of II IT, successfully completed an online course on AWS Academy Cloud Architecting course & was awarded the badge AWS Academy Graduate.

JUN 21st

ONLINE COMPETITION

Shreya Sajid of third CSE worked on training and building autonomous race-cars using Reinforcement Learning. After a set of rigorous regional and national rounds, she has advanced to the National Live Grande Finale and was shortlisted as the top 15 out of 17,000+ participants across the country. She has also published an article in LinkedIn on Women in Technology, stating her achievement.

JUN 21st

FDP

Mr Chandrasekhar AP/Mech participated in a five day ATAL FDP on Human Factors in Software Design, organised by IIITDM from 21st to 26th June 2021.

JUN 21st

WEBINAR

Webinar on Space Exploration was organised by ARME student members for School students to walk through the rudimentary and intriguing concepts of Space Exploration.

JUN 21st

WORKSHOP

The Department of Computer Science and Engineering organized a hands-on workshop on Google ML kit with Android Studio for the third year students and the resource person was Dr Bright Gee Varghese, AP, Karunya Institute of Technologyy and Sciences, an expert in App Development and an oracle ceritified professional.The experiential learning enabled students to build a Camera Application which could take and record the details of objects covered in the picture.

JUN 22nd

FDP

Ms Prabha B AP/IT, attended a two day FDP on Advances in Photonics and Fiber Optics Technologies, organized by IETE Chennai Centre & IEEE Photonics Society, Madras Chapter on 21st & 22nd June 2021.

#Academic Events

JUN 22nd

ONLINE COURSE

Mr Marshal Mano AP/IT, successfully completed an online course Complete Python Bootcamp from Zero to Hero in Python through Udemy.

JUN 22nd

ONLINE COURSE

Pavithra P of II IT, successfully completed an online course on AWS Academy Cloud Architecting course & was awarded the badge AWS Academy Graduate.

JUN 23rd

ARTICLE PUBLICATION

Mr G.K. Sathishkumar has submitted a paper titled Experimental and Finite Element Analysis of Lignite Fly Ash on the Mechanical Properties of Sisal-added Polymer Matrix Composite using ANSYS Workbench, which is published in Journal of Natural Fibers (A group of Taylor and Francis Ltd publication) that has an impact factor of 5.323.

JUN 23rd

FDP

Ms Prabha B AP/IT, attended a three-day FDP on Citation Styles and Reference Lists, organized by SSIM, Secunderabad and Mendeley from 21st to 23rd June 2021.

JUN 23rd

CERTIFICATION

Ms Prabha B AP/IT, successfully completed a Mendeley Training Course with a Certified Mendeley Advisor.

JUN 23rd

ONLINE COURSE

Mr Marshal Mano AP/IT, successfully completed an online course on Introduction to Javascript Development, through Udemy.

#Academic Events

JUN 23rd

ONLINE COURSE

Krithika N of II IT, successfully completed an online course on Engineering Virtual Program through Goldman Sachs.

JUN 23rd

WEBINAR

Ms. Ann Christiana AP/English, attended a webinar on An Insight into National Educational Policy 2020, organised by Mar Baselios Institute of Technology & Science, Kerala.

JUN 24th

HONOUR

Ms Shobana G AP/IT, selected as an Evaluator for the Toyathon 2021, Grand Finale, organized by Ministry of Education Innovation Cell.

JUN 24th

ONLINE COURSE

Jennifer Lesly S of III IT, successfully completed COVID-19 Contact Tracing, an online non-credit course authorized by Johns Hopkins University and offered through Coursera.

JUN 24th

ONLINE COURSE
